
Social Sciences: from multi-discipline to inter-discipline approach (Progres Q18)

2017-2021

Principal Investigator: Jaroslav Kučera

CESES participates in the part of the Charles University programme Progres that is implemented by the Faculty of Social Sciences. The Progres Q18 is focused on enhancing collaboration in the social science research within the whole university. The social science disciplines are developed in terms of an inter-discipline research of various concrete themes in which researchers and their teams are interested and which are high relevant from the scientific as well as social points of view.

More about the Progres Q18 [here](#) .
